

## Wreny's Book Care Tips...

Read your book with clean hands.

Never write or draw in a book.

Don't fold the pages - use a bookmark.

Turn the page by the top corners.

Keep books away from babies (and pets!).

Don't eat, drink, or chew gum while you are reading your book.

Don't try to fix a book yourself - bring it back to the library.

When you are not reading your book, keep it in a safe place, such as a backpack.

Bring your books back to the library on time!
