Formal Assessments

Continuous assessment is vital to the development of a comprehensive education program. Assessing what children know and then revising instruction is crucial to good learning and good teaching. Teachers at each grade level work together to devise common assessments to determine students' knowledge. When projects are assigned, rubrics are used to develop and then to rate the finished products. In addition to the informal assessments teachers create, the following assessments are also used:

- PALS are used as a pre and post test in the pre-k program. These tests measure a child's language development
- iReady screener for reading and math in grades K-5.
- Fry (sight) word checks are administered throughout the primary grades.
- IKAN/GLoSS Assessment for Math is administered at least 3 times per year, more often if a student is below grade level.
- DRC Beacon is administered 3 times a year in grades 3-5 and twice a year for 2nd graders. It gives the students a Lexile score which helps them select reading material and helps the teacher plan instruction.
- Georgia administers an end of course test for each subject in grades 3-5, Georgia Milestones.

HOMEWORK

Homework assignments should fulfill one or more of the following purposes:

- Strengthen basic skills.
- Give extra practice on work that has already been introduced.
- Extend and enhance school-learned knowledge and skills.
- Reinforce study habits.
- Develop initiative, responsibility, and self-direction.
- Stimulate independent thinking.
- Increase the range and scope of student interests.
- Foster worthwhile use of leisure time.
- **Let parents know what work** is being done in the classroom.
- Should not be used as punishment.

Homework assignments will vary in length, but generally, they should follow these time limits:

- Kindergarten.....5-10 minutes
- First Grade.....10-15 minutes
- Second Grade.....15-30 minutes
- Third Grade.....30-45 minutes
- Fourth and Fifth Grades.....45-60 minutes

TRANSPORTATION SERVICES

Jefferson County provides transportation services for students who live too far to walk to school but within the school's attendance zone. Safety is the first goal of the transportation department. All riders will be required to sign the Safe Rider Form which provides the rules for safe riding and emergency contact information. Below is a list of the major safe rider rules:

1. Students must comply with reasonable directives of the school personnel.
2. Students should be at designated bus stops 5 minutes prior to pick-up.
3. Students must sit in assigned seats.
4. No food or drinks are allowed on the bus.
5. No loud talking, horse playing, roughhousing, or fighting are allowed.
6. Students must remain seated until the bus comes to a complete stop.
7. Students must board and exit the bus at their designated stops only unless written permission is granted by the parent and the school administrator.

A Gradual Discipline Plan will be in place for those not following school bus expectations **(JCSD policies take precedence over Safe Rider Program)**

SPECIAL SERVICES

- **Early Intervention Program (EIP).** This initiative is a state-funded program to lower the pupil-teacher ratio in the classroom in order to be sure that students are working on grade level before they leave elementary school. Teachers identify these students based on their classroom performance.
- **Special Education Programs.** Students who are experiencing difficulty will be offered increasingly intensive interventions and may eventually be referred for evaluation and more specialized instruction. The parent's signed permission is required before any additional testing or any change in placement is made. Special education students are served through an inclusion model in the regular classroom.
- **Gifted Education Program.** In order to qualify for gifted education services in Georgia, a student must show exceptional performance in the areas of mental ability, achievement, creativity, and motivation. In Jefferson County, all students in grades K-12 are screened for possible referral for gifted education services each year. A student may also be referred for consideration for education services for the gifted by teachers, counselors, administrators, parents or guardians, peers, self, and other individuals with knowledge of the student's abilities. Referral forms are available in each of the school offices or they may be obtained from Dana Williams at the Board of Education Office.
- **Counseling.** Louisville Academy is fortunate to have Mrs. Patricia Strange as a guidance counselor. She sets up individual, small group, and classroom sessions on topics such as group dynamics, making friends, dealing with loss, exercising self-control, controlling your temper, learning study skills, etc. In addition, Mrs. Strange is responsible for the character education program and for conducting classes based on students' needs.
